(1) There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or environment and hence require reporting in this section

(2) Occupational exposure limits, if applicable, are listed in Section 8

SECTION 4: First aid measures

Inhalation: If affected, remove from exposure. Restore breathing. Get medical attention.
Eye Contact: Flush eyes with large amount of water for 15 minutes while holding eye lids open. Get medical attention.
Skin Contact: Wash affected area thoroughly with soap and water. Remove contaminated clothing and launder before re-use.
Ingestion: Do not induce vomiting. Call poison control and/or seek medical attention immediately.
Notes to Physician: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

SECTION 5: Fire Fighting Measures

Flash Point: Non-Combustible

Extinguishing Media: Carbon Dioxide, Dry Chemical, or Alcohol Foam
Special Hazards: Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat. Material may spatter above 100C / 212 F.

Special Fighting Equipment & Procedures: Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible explosion when exposed to extreme heat.
SECTION 6: Accidental Release Measures

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED
Remove all sources of ignition. Ventilate the area. Dike around spill and absorb liquids with absorbent. Sweep up and shovel into suitable containers for disposal. Stop spill from entering drains, sewers, streams, or waterways. Affected spill area may be slippery. Wear appropriate personal protection equipment while in affected area.

SECTION 7: Handling and Storage

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE
Do not store above 50C / 122 F, near heat or open flame. Protect from freezing. Close container and keep upright to prevent leakage. Keep out of reach of children. Transfer only to approved containers with complete and appropriate labeling.

This coating contains materials classified as nuisance particles which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in this section, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m3 (total dust), 3 mg/m3 (respirable fraction), OSHA PEL 15 mg/m3 (total dust), 5 mg/m3 (respirable fraction).

Ventilation: Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section II is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

Work/ Hygienic Practices: Wash hands before eating, smoking or using the wash room after use of this product. Do not consume food or beverages where this product is handled.

Respiratory Protection: If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection. When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.

Protective Gloves: Required for long or repeated contact. Use neoprene or rubber gloves to prevent skin contact.

Eye Protection: Wear safety spectacles with side shields.

Other Protective Clothing or Equipment: Use disposable or impervious clothing if work clothing contamination is likely. Availability of eye wash and shower stations recommended.
